

Kindergarten Enrichment at Creation Corner

Kindergarten Enrichment offers families the option to extend a child's half-day school experience, with additional age-appropriate activities. Children may attend morning or afternoon sessions on 2, 3, or 4 days per week. Activities will provide a blend of academic, social, creative, expressive, and developmental experiences which will enhance students' current kindergarten experience. Our half-day kindergarten program is a complete kindergarten program, which can also be used to supplement other area half-day kindergarten programs. We welcome children from all schools to Creation Corner!
