

Spring & Summer Fun!

Learning, singing, dancing, drawing, painting, cooking, playing, praying, sharing, listening, talking, watching, doing, being kind, being thoughtful, being active, being still, being us, being children — that's what we do at Creation Corner each and every day! One more year of excitement and adventure. One more year of good friends, good food, good experiences all around.

We thank each and every person who helped our school year in any way. Maybe you came to visit, maybe you drove a child to school, maybe you came to a special event, maybe

you prayed for us, maybe you read an issue of "Corner Clips", maybe you told someone about us, or maybe you just gave us a thought! Whatever you did, you helped us to grow and to spread our message that learning can be fun and very creative! We appreciate all we have here at Creation Corner and plan to continue into the future with your help. Please continue to spread the word about your good experiences here! We are very thankful for the gift of children every day and look forward to meeting and helping more families in our area. Have a wonderful summer!

Ideas, thoughts, requests....

- **Get your registration materials in! We are working on class groupings, teacher hours, and important paperwork now! PLEASE inform us of your intentions immediately so that we can plan for fall!**
- Enjoy the arts this summer with your children! Visit places like Longwood Gardens and Tyler Arboretum which are wonderful for adults, but have special exhibits for children to enjoy.
- **Enjoy music this summer with outdoor concerts at Rose Tree Park! Schedule is available on the web.**
- Traveling? Get games and toys that encourage discussion, in addition to the

electronic toys that will give parents a break during a long ride. Remember that children are active learners! Engage their senses with items that encourage listening, discussion, and use of the imagination.

- **Visit the local libraries for children's programs this summer! Keep those little brains stimulated with books and summer reading groups or storytimes.**
- Check out local churches for Vacation Bible School programs, which are so much fun, educational, spiritual, and social. Each church has its own program, so keep your eyes and ears open.

In This Issue

Hope you are enjoying your summer! In this abbreviated issue, find out what's going on at Creation Corner this summer. The fun continues!

- *Important dates for fall.*
- *Special thanks to our special friends!*
